

Important Instructions!

MicroPolishing Cloth

- **Unique fine-woven microfiber material with micro-filaments**
- **Made of 65% polyester and 35% polyamide (nylon)**
- **Feels like a natural chamois or ultra-suede**
- **Lint-free**
- **Traps, scoops, and lifts dust and lint unlike cotton or terry towels**
- **Home Applications:**
 - a. **Safely cleans flat panel lcd and plasma TV screens, computer monitors, keyboards, CD's and DVD's. It removes fingerprints, dust, and dirt without any cleaning solution. Simply use water or use it dry.**
 - b. **Use to remove copper or brass polish – buffs silverware to a high gloss**
 - c. **Cleans all types of glass, mirrors, sunglasses, reading glasses, etc.**
- **Vehicle Applications:**
 - a. **Quickly removes that hideous white, smoky film on the inside of your car's windshield – quickly and easily – without the need for glass cleaning solution or liquid. Great for regular windows, too!**
 - b. **Makes your car polish shine better than using a terry cloth towel. Ditto when shining shoes.**
- **There are hundreds of uses for this special microfiber material.**

CARE OF PRODUCT

- **To clean: Hand or machine wash in warm water with mild detergent and rinse well.**
- **Do not use bleach or fabric softener.**
- **Do not wash or dry with other cotton items.**
- **To dry: Air dry (preferred) or machine dry (may shrink up to 7% if machine dried). Do not dry with other cotton items.**
- **Do not iron.**
- **Store in a plastic bag to minimize airborne dust between each use.**
